

Why accept Aptis ESOL in your organisation

Innovative language assessment

Aptis ESOL, developed by the British Council, offers a flexible and accurate English language testing solution designed for the modern world. The test is backed by the British Council's 90+ years of language assessment expertise and the Aptis testing system is trusted by governments, businesses, and educational institutions in over 85 countries. Aptis ESOL is regulated by Ofqual, the UK's authority on qualifications and assessments, and adheres to high standards and maintains consistent quality.

Benefits of Aptis ESOL:

- **Trusted** — regulated by Ofqual, developed by British Council assessment experts and recognised by ministries and educational institutions across the world.
- **Quick and accurate results** — get results within 48 hours. With its digital platform and innovative scoring system, Aptis ESOL offers quick and reliable results with speaking and writing skills assessed by trained human examiners.
- **Secure** — delivered by the British Council under strict security regulations in face-to-face sessions. Aptis ESOL Results Verification Service offers a quick, secure way to verify candidates' test results based on secure blockchain technology.
- **Data-driven decision-making** — Aptis ESOL provides detailed reports offering deep insights into candidates' language abilities. These details support effective decision-making in recruitment, admissions, and staff development.

- **Adaptable to various contexts** — whether for academic purposes, professional development, or recruitment, Aptis ESOL's versatile design allows for its application across different sectors, aligning with your specific requirements and objectives.
- **Get talent** — The culturally neutral design of the test ensures it is fair and relevant for individuals from diverse backgrounds, supporting organisations in maintaining inclusivity and fairness in assessment practices.

“ The exam experience was very positive, because Aptis ESOL assesses your level of English in a very objective way without having to complicate it further. ”
